

Hazelwood Schools

Values Policy

July 2010
Review July 2011

HAZELWOOD SCHOOLS VALUES EDUCATION

Aim

At Hazelwood Schools it is our aim to raise standards by promoting a school ethos which is underpinned by core values. These values support the development of the whole child as a reflective learner within a calm, caring, happy and purposeful atmosphere.

Rationale

At Hazelwood Schools we give regular thought to how values can be used to support the child as a reflective learner and promote quality teaching and learning. In our society children are increasingly encouraged through advertising to think of happiness as something which can be found simply in the material world. They are generally encouraged to experience life in a world which is external to their inner selves.

As a school community we believe that the ethos of the school should be built on a foundation of values. The values we focus on are:

- Respect
- Responsibility
- Thoughtfulness
- Friendship
- Love
- Courage
- Appreciation
- Honesty
- Understanding
- Co-operation
- Quality
- Unity
- Peace
- Happiness
- Hope
- Patience
- Care
- Humility
- Trust
- Freedom

One value will be covered each month over a two year cycle. In both years July will be used to recap the values taught over the year. Please see appendix for monthly list and connection with SEAL.

These are at times addressed directly through lessons and assemblies but also permeate the whole curriculum. Either way, they are the basis for the social, intellectual, emotional, spiritual and moral development of the whole child. We encourage children to consider these values and thereby to develop

the knowledge, skills and attitudes that enable them to develop as reflective learners and grow to be stable, educated and polite adults.

Teaching and Learning

The elements of Values Education are:

- Ensuring that the school's institutional values are consistent with the values that pupils are encouraged to develop.
- The active promotion of a whole school policy that has the support of all the staff and is led and monitored by the head teacher.
- A programme of school assemblies that introduce and explore a value each month. Pupils are encouraged to be actively involved in exploring their understanding of values.
- Direct teaching about values in the classroom. These sessions provide opportunities for personal reflection, moral discourse and appropriate activities which promote understanding.

Teaching and Learning about Values takes place in the following ways:

- By teachers explaining the meaning of the value (see Appendix 1).
- By pupils reflecting on the value and what it means to them and their own behaviour.
- By pupils using the value to guide their own actions.
- By staff modelling the value through their own behaviour.
- By ensuring that values are taught implicitly through every aspect of the curriculum.
- Through the work of the House Meetings.
- By involving all staff, governors and parents in the values programme through newsletters which explain how school and home can work together to promote positive values.

Children's Needs

In order for the school's purpose to be effective and for the values to be meaningful CC Ney pup if, the tooflenfer tenn p t lhvees eeac

Teacher Behaviour

In order to try to meet the needs of children, staff try always to be consistent in their own behaviour and in their expectations of the children. They:

- Value and respect all the children.
- Display great patience and listen carefully to children.
- Focus on and emphasise the positive.
- Help pupils to come to terms with difficult issues as they arise, such as death.
- Only disapprove of poor behaviour, never the child.
- Try to make time for one another.
- Are mutually supportive.
- Speak quietly and avoid shouting.
- Are valued by the governors and the community.
- Have a good sense of humour.
- Communicate with parents, children, governors and the community to ensure that they appreciate the school's values and to ensure that there is a common understanding.
- Model polite behaviour

Pupil skills

Throughout the school the development of the following skills which contribute to reflective thinking about values are encouraged within context:

- Displaying politeness and good manners to everyone in school.
- Speaking quietly and politely to others.
- Listening carefully to and thinking about what others are saying.
- Reflection.
- Empathy
- Using imagination.
- Stillness.
- Being able to express feelings constructively, thereby learning to manage feelings and resolve conflicts through discussion, understanding and practice.
- Articulating thoughts clearly in order to enhance communication skills.
- Walking quietly about the school building.
- Developing positive attitudes to work and play.
- Accepting personal responsibility for actions.
- Care and respect of other people's property.
- Respect the physical space of others.

Activities that promote Reflective Thinking

Teachers are especially mindful of the activities that promote positive thinking and incorporate these into their teaching as much as possible. These include:

- Creating a peaceful climate in the classroom and on the school site.
- Taking children to beautiful places to experience peaceful places and encourage them to value them.
- Pupils setting their own targets for their work and behaviour.
- Pupils involved in the assessment of their own work.
- Giving opportunities for decision making.
- School's behaviour policy that clearly defines how the school puts emphasis on behaving well and positive thinking.
- Giving time in class for pupil to respond to some of the basic needs within us: friendship, love co-operation, to clarify their understanding of values.
- Allowing children to sit and work in silence to think through their own thoughts.
- Helping children to be relaxed and unstressed but focused on their activities.
- Including visualisation as a teaching technique to help in the development of the imagination and memory.
- Opportunity for role-play so that skills associated with negotiation, cooperation and assertiveness are developed. This helps children to understand the potential consequences of giving way to peer pressure.

Benefits for the Pupils

The benefits that come when children are expected to be reflective about values are:

- Children behaving more calmly and purposely.
- Children able to concentrate and reflect more on their own behaviour.
- Children being more self-aware and self-accepting.
- Children being more considerate to others and less ego-centred.
- Children taking a greater responsibility for their own actions.
- The improvement of self-confidence and self-esteem.
- Pupils knowing themselves better and being able to relate to others more effectively..
- Children becoming independent and growing in confidence.

Conclusion

The approaches outlined in this policy describe how the school uses core values as a basis for its work. The success of our approach to teaching and learning is not easily measured but it is evident in the school's positive ethos and in the personal qualities that pupils display in the community.

APPENDIX 1

Implementing the Values Education Programme

- Values are introduced in assembly each month children become familiar with the language and ideas.
- Parents informed of monthly value so they can reinforce at home.
- Lots of basic training is needed, especially in the early years: manners, routines, picking up the positive and giving praise when children show respect etc.
- We have high expectations and clear boundaries: the foundation of good values require good discipline.
- We aim for a calm, reflective atmosphere which facilitates contemplation. Then the children get to know themselves better and develop a sense of responsibility for their own lives and happiness.
- At the start of the year class rules are decided with the children: the rules are then real and meaningful for the children.
- Opportunities are taken to discuss values throughout the curriculum.
- As teachers, we try to live the values: we teach best by being role models.

APPENDIX 2
HAZELWOOD SCHOOLS Values and Links with SEAL
Two year cycle

Year 1 SEAL THEME

- Responsibility September New Beginnings
- Respect October
- Thoughtfulness November Getting On and Falling Out
- Friendship December
- Love January Going for Goals
- Courage February
- Appreciation March Good to be Me

- Care March Good to be Me
- Humility April
- Trust May Relationships
- Freedom June Changes
- Recap of all values July

SEAL: Say No To Bullying unit to run throughout assemblies and Anti-Bullying Week

APPENDIX 3

Spiritual, moral, social, and cultural values are taught in assemblies and in discreet lessons but also permeate the whole of the curriculum.

Below are some ideas of how SMSC can be seen throughout the curriculum at Hazelwood Schools.

SPIRITUAL

English

- Literature, including story and poetry that explores human experience and response to life and death.
- Use of stillness and imagination in drama and other subjects to develop inner awareness.
- Expressing feeling and emotions through verbal and written communication, knowing that words can influence feelings.

Mathematics

- Enjoyment of and fascination by numbers, including the idea of infinity.
- Reflecting on pattern and order as well as a sense of mystery and space.
- Exploring the relationship of numbers, shape and objects and the possibility of inter-connectedness.
- Sense of achievement and self-worth at appropriate levels of understanding.

Science

- Scientific links with a spiritual interpretation about the universe and life.
- Using the school grounds for reflection on relationships between people and their environment.
- Reflecting on the mystery of the natural world and physical worth, life cycles and growth.
- Awareness of physical self as wonderful

Design Technology

- Sense of worth in human potential and achievement.
- Designing cards for religious festivals.
- Making holy books and other artifacts/special objects pleasure in physical constructions.
- Art in design

Information Communications Technology

- Connectedness with people all over the world through the internet.
- Using programmes to create poems and pictures.
- Becoming independent and developing self-reliance.

History

- Ideas of change and development and re-creation.
- Understanding the importance of tradition to a community.
- Sense of time and awareness of personal place within it.

Geography

- How things came about and a sense of wonder at the earth's variety and order.
- Developing self-awareness and relationships with other cultures and environments.
- Appreciation of natural features e.g. lakes, woods.

Art

- Idea of beauty in art.
- Appreciation of colour, shape and texture.
- Religious and spiritual ideas expressed in, e.g. stained glass windows.
- Art as a means of expressing feelings, imagination and expressive thought.

Music

- Making music by singing together, songs and hymns with instruments.
- Listening to specific chosen pieces, and why people write music, e.g. Hallelujah chorus.
- Identifying feelings and emotions associated with different types of music.
- Using music as a background to times of quiet and reflection to develop awareness of the inner self.

Religious Education

- Knowledge of religious reflection, humanist ideas and spiritual practices, e.g. worship.
- Providing opportunities for experiencing space and silence to allow skills in reflection and awareness to develop
- Meeting others who belong to other traditions.
- Providing opportunities for experiencing awe, wonder and transcendence.

Physical Education

- Spiritual awareness of body, its beauty and potential through activity and observation.
- Movement to express feelings and emotions including dancing for joy.
- Developing inner determination to do one's best and recognise and develop one's inner potential and strength.

Modern Foreign Languages

- Awareness of the beauty inherent in another language.
- The use of a different language to express thoughts slightly differently.

SOCIAL

English

- Circle time skills in speaking and listening.
- Social interaction through play.
- Writing for and communicating with an audience.
- Group drama work, reading and discussion of social issues in literature.
- Stories to create awareness of a variety of life experiences, e.g. deafness.

Mathematics

- Maths games for social interaction, taking turns and sharing.
- Working in pairs and groups to gather information and solve problems.
- Recognising maths skills as a tool for society.

Science

- Investigation in groups, sharing skills and expertise.
- Science as a cooperative activity requiring communication and interaction.
- Science related to issues in society, e.g. alcohol abuse.

Design Technology

- Designing with others.
- Using technology to benefit others e.g. handicapped.

Information and Communications Technology

- Working co-operatively.
- Using data-handling skills to promote understanding of social issues.
- Poster design for safety.

History

- Exploring structures of society, including institutions, e.g. hospitals, hospices, work houses.
- Looking at children past and present.
- Understanding the influence of the past on the development of society today.

Geography

- Local studies to raise awareness of different homes, communities and family groupings.
- Local amenities: who are they for?
- Human influence on the landscape/local economy.
- Group fieldwork opportunities.

Art

- Art as a means of learning about people and society.
- Group collage.

Music

- Taking part in performances.
- Collaborative work and sharing resources.

- Group singing and composition.

Religious Education

- Knowing about and understanding the importance of family and traditions within religious faiths and social groups
- Study of ideas of community in humanism religions.
- Researching charities and other religious and non-religious forms of social caring and responsibility

Physical Education

- Participation in traditional and creative dance and pair and group work in gymnastics.
- Enjoyment of team games, showing co-operation, respect for others and their needs.

Modern Foreign Languages

- Comparing lifestyles and attitudes.
- Recognising similarities and differences between cultures, in terms of language use as well as social behaviour and issues
- The ability to communicate directly with someone who speaks a different language.

MORAL

English

- Discussion of right and wrong – moral issues exemplified in children’s literature.
- Skills of listening and forming evaluative judgments in discussion.
- Circle time discussion of behaviour and relationships.
- Dramatising situations which raise moral questions.

Mathematics

- Encouraging a sense of personal responsibility for their own learning in class and through homework
- Encouraging honesty, not cheating.
- Awareness of manipulation of data statistics.

Science

- Thinking about experiments and investigations and their outcomes for humans.
- Caring for living things.
- Discussing issues raised by scientific discovery and progress, e.g. genetic engineering.

Design Technology

- Learning co-operation with others through activities.
- Technology as helpful and constructive as well as potentially destructive.

Information Communication Technology

- Independent working to develop a sense of integrity and trustworthiness.
- Discussion of moral issues, e.g. correct information, pornography.

History

- Developing awareness of local, national and world issues.
- Encounter with ideas and encouragement to think through a moral stance on issues, e.g. war and peace

Geography

- Developing moral responsibility to care for the environment.
- Awareness of human exploitation, e.g. child labour in developing countries.
Poverty amid affluence
- Awareness of misuse of earth's resources and human responses, e.g. recycling and deforestation

Art

- Interpreting pictures which put a moral point of view.

Music

- Appreciation of music and respecting the ideas and judgments of others.
- Learning about and from the lives of composers.

Religious Education

- Stories with a moral message from other world religions.
- Ideas of right and wrong behaviour in world religions.
- Individual and corporate responsibility within religious and other communities.
- Developing skills of listening, respecting and evaluative judging.

Physical Education

- Taking part in team games and obeying rules.
- Awareness of others' needs, particularly physical.
- Encouragement to cheer, celebrate achievement and shake hands at the end of a game.
- Developing a sense of fair play, not hurting anyone.

Modern Foreign Languages

- Stories with a moral message from other countries.
- Current affairs and human responses to them within different countries.
- Awareness and understanding of fellow human beings living different lifestyles in different countries

CULTURAL

English

- Stories and literature from other cultures.
- Awareness of issues such as stereotyping and equal opportunities in literature.
- Language and meanings in different cultures.

Mathematics

- Creating Islamic patterns, rangoli patterns and using Roman numerals.
- Careful choice of resources and examples to include references to other cultures.
- Counting in a different language.

Science

- Differences and similarities between groups of humans.
- Animals from different countries.
- Creation stories from different cultures alongside current scientific thinking.
- Role of science in different cultures and religions.
- Scientific development in relation to others – water supplies, new varieties of flowers and food crops.

Design Technology

- The effectiveness of very simple technology in some cultures.
- Instruments from different countries, e.g. cooking utensils.
- Designs for different climates, e.g. sun hats.

Information Communication Technology

- Assessing information about cultures by using CD Roms, etc.
- Direct contact with children in other cultures through internet.

History

- The story of development of other cultures.
- Stories of religious leaders and their influence on cultures, both positive and negative.
- History of contribution of other cultures to science and maths.

Geography

- Study of people – especially children living in different countries and comparison with own cultural context
- Developing an awareness and appreciation of different styles of everyday life.
- The influence of environment on societies.

Art

- Pictures from different cultures,
- Visiting galleries and exhibitions to view art from different cultures.
- Art as an expression of culture

Music

- Music from different cultures,
- Listening to and using instruments from other cultures.

Religious Education

- The study of different religions as part of a cultural tradition.
- Meeting people from a variety of faiths and cultures, and visiting places of worship.
- Exploring how religious and humanist ideas are expressed in different cultures, e.g. food, dress, festivals

Physical Education

- Dance as an expression of culture,

Modern Foreign Languages

- The study of different food and eating habits, literature, leisure pursuits, fashion and life styles as part of a cultural tradition
- Comparisons of attitudes, e.g. to schools and schooling in different countries.
