**Art**

**Curriculum Overview**

## Art at Hazelwood

### Intent

At Hazelwood Schools, we value the importance of Art and its impact on children's personal and creative development. We know that Art skills, particularly drawing, play a huge part in the progress of all areas of learning and that children thrive when given opportunities to express themselves creatively. It is our intent that Art at Hazelwood inspires awe and wonder through enriching experiences and a purposeful curriculum. Learning is built through weaving, layering and revisiting experiences, enabling our children to leave primary education equipped with a broad knowledge of Art.

The aims of our Art curriculum are:

- To provide real, relevant, immersive and purposeful opportunities for children to develop their own ideas by exploring a variety of media, techniques and approaches
- To develop new technical skills in drawing, painting, printing, sculpture and collage by building on prior knowledge and experiences
- To provide opportunities for children to be inspired by a range of great artists, enabling them to build their knowledge of different art forms and movements
- To use the language of art to evaluate and communicate ideas
- To enable children to draw upon the work of, and the media, techniques and approaches used by, artists to create and evaluate their own work
- To explore and develop own ideas through the creative use of sketch books

## Implementation

At Hazelwood our planning is guided by the “Access Art” schemes of work which supports the implementation of the National Curriculum for Art in an imaginative way based on universal principles of effective teaching and learning in Art. “Access Art” works to help raise levels of aspiration through inspiration. The Access Art Curriculum is about opening up what art is, giving pupils lots of different kinds of opportunities and experiences (media, techniques, approaches, artists), all underpinned by a creative use of drawing and sketchbooks.

### Hazelwood’s Approach to Teaching and Learning

At Hazelwood you will see a range of real, relevant, immersive and purposeful learning opportunities within a nurturing, enabling environment, including the following approaches to teaching and learning:

- Children **exploring and answering big questions** which allow them to think deeply about their learning
- Children **hearing and using key vocabulary** in a range of contexts
- Children **speaking in full sentences** using the key vocabulary taught
- **Cold calling** - supporting all children in engaging in their learning and believing they can achieve
- **Adaptive teaching** - responding to the needs of all children
- **Retrieval practice** – allowing children to know more, remember more and do more
- **Positive relationships and quality interactions** that nurture our responsible citizens
- **Spaced and sequential learning** over time to help children learn more quickly and remember learning better.

### In a typical Art lesson, you will see:

Real, Relevant, Immersive and purposeful learning opportunities within a nurturing and enabling environment.

- Art learning following a particular theme. Drawing and Sketchbooks, Surface and Colour and Working 3D
- A ‘big question’ directs the theme.
- Each lesson takes an art element from which to explore e.g. Printing, painting, collage etc.
- Key vocabulary is introduced, used and discussed.
- A practical element whereby the pupils can explore the new concept.
- Key concepts are discussed at the end of each lesson to evaluate and share their findings.
- Emphasis on a joyful teaching and learning experience which empowers pupils to become confident, creative decision makers.
- Our art curriculum does not contain pre-defined outcomes and the children have some ownership over their artwork
- Use of sketchbooks as a space for children to collect and develop own ideas and test out different art forms and methods.
- In the Early Years the children have the opportunity to play and explore a wide range of media and material through their enabling environments and child led learning.
- Good quality cross-curricular links are interwoven where possible, such as Science, Design Technology, Maths, Geography and History.

## Impact

### How do we assess?

We assess our children using a range of methods:

- Sketchbooks are monitored through one to one or small group conversations.
- Identify any personal challenges preventing meeting 'I can' (Access Art) statements.
- Identify any areas for development common to many in class which might help identify areas that need to be focussed on again.
- Identify areas of particular strength which may benefit from being developed.
- Questioning and verbal discussions are a large part of our assessment.
- Children can share, reflect and discuss their ideas (in every lesson but a real focus on lesson 6)
- LO/lesson questions are highlighted/ cross hatched to show those who have achieved the lesson objective.
- Summative assessment is recorded termly on Scholar Pack, identifying those working at ARE, as well as those below and above ARE.

### How do we know that children are at age-related expectations?

- Children can explain what they have created and why.
- Children are able to talk confidently about what they have learnt.
- Children can use the vocabulary associated with the theme.
- Children can discuss the artist or artistic movement related to the theme.
- Children achieve the Access Art end of unit outcomes.

### How do our children feel about Art?

- 'I Love it because you can draw and it makes your creativity better.'
- 'I like drawing, painting and sketching.'
- 'I enjoy art because it's calm and it relaxes me.'
- 'I really like learning about typography because you can use different shapes and styles to create emotions.'
- 'I enjoy exploring and creating things.'
- 'Art lets your imagination go wild'.
- 'I like to be creative because there are no rules. You can be freer in art.'
- 'I try hard to learn new skills.'
- 'I enjoyed making pictures with natural objects that I found outside.'
